

Appl. No. 10/052,513  
Amendment dated July 6, 2004  
Reply to Office Action of February 3, 2004

**REMARKS**

Reconsideration and allowance of this application, as amended, is respectfully requested.

This Amendment is in response to the Office Action dated February 3, 2004. By the present Amendment, claims 1-4 and 7-20 have been cancelled, without prejudice to the Applicants' right to re-present these claims at a later date.

Also by the present Amendment, new independent claim 21 has been added to replace the original claim 1, and the dependencies of claims 5 and 6 have been amended to depend on newly presented claim 21.

Reconsideration and allowance of independent claim 21 and its dependent claims 5 and 6 over the cited prior art to Ueno and Ishibashi relied on in rejecting claims 1-16 is respectfully requested. Newly presented claim 21 defines specific features of the present invention with regard to calculating matching errors, a modification value, a first exposure condition correction value and the modification of the calculated first exposure condition correction value to obtain the second exposure condition correction value to render exposure by using a second exposure tool. It is respectfully submitted that this serves as a clear distinction over the cited references to Ueno and Ishibashi. Accordingly, entry of newly presented independent claim 21, and allowance of this claims, together with its dependent claims 5 and 6, is respectfully requested.

If the Examiner believes that there are any other points which can be resolved by either a personal or telephone interview, the Examiner is invited to contact Applicants' undersigned attorney at the number indicated below.
